1. Break the Straight Line. Your problem: you're not able to draw a straight line/perfect circle. Step 1. Straight lines aren't real. They exist only in vector, as the shortest way between two points.

You can cheat and use a ruler, but most likely your hand will never learn to draw a perfectly straight, long lines.

The contour sketch is a nice way to practice creating smooth lines. This is one of the trickiest parts of drawing for beginners because you may not have confidence in your ability. Use the contour as an exercise to combat that and choose other simple objects to draw and simply focus on line and form. 06 of 06.
