Franklin F. Kuo was Van Valkenburg's PhD student, and both ended up writing some of the best books in the EE field, Kuo is more recognized in the control theory field whilst Van Valkenburg has more material on electrical networks and filters, however with this book in particular I would say that the student surpassed the teacher ...

\*\* Preface. This book is an introduction to the study of electric networks based upon a system theoretic approach. In contrast to many present textbooks, the emphasis is not on the form and structure of a network but rather on its excitation-response properties.
